

ShowCase™ Wind Load

More Than Good Looks

ShowCase™ doors are made with a rugged, two-sided steel design, encasing a core of thermally bonded, CFC-free, expanded polystyrene insulation, delivering a thermally efficient 10.25 R-value.

Thermal break and Section Joint

ShowCase doors feature a vinyl thermal break between interior and exterior skins, and a section joint seal to prevent weather infiltration.

Weatherseal

ShowCase doors are equipped with a bottom weatherseal to keep weather out.

Hardware System

Steel wheel, ball bearing rollers glide through a hot-dipped, galvanized steel track.

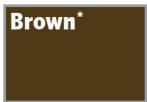

Raynor Secure

ShowCase doors are available in a wide variety of pressure ratings to meet your local wind codes.

Colors

Standard

*Features the Kynar® paint process, which provides extended UV protection against fading.

Optional

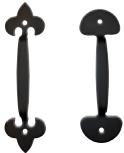

Raynor's OptiFinish paint process allows your ShowCase door to be customized with more than 1,800 Sherwin-Williams™ colors.

Decorative Hardware

The black matte powder coated straps and handles are designed to appear hand-forged, adding a historically-accurate dimensional quality to your door. Choose from handles and straps with Bean or Fleur-de-Lis designs.
