Operators

Raynor ControlHoist™ operators with solid state logic boards provide reliable and efficient operation. Raynor operators feature either belt drives (Models MSH or MST) or gear drives (Models MOH or MOT) with multiple motor and voltage and are designed for multiple door sizes and for higher-cycle applications. Pairing a Morton Door by Raynor with a Morton Operator by Raynor ensures that the proper operator is selected for the application resulting in years of trouble free operation.

Raynor Wind Load Garage Door Systems

Raynor offers a complete line of garage doors tested and approved by the Florida Building Code (FBC), the Miami-Dade building code, and the Texas Department of Insurance. Approved garage doors are available in a wide variety of designs and styles.

To determine whether your Morton Door by Raynor meets specific Wind Load requirements for your market, contact Raynor.

Warranty

Morton Doors by Raynor, when sold under contract, feature an industry leading exclusive Garage Door Warranty. The Morton Buildings warranty extends above and beyond any standard warranty to the deliver peace of mind that Morton Buildings customers expect. This exclusive warranty consists of several key components:
• 1 year limited door section warranty
• 5 year limited track, hardware, & spring warranty
• 35 Year FLUOROFLEX® 1000 Paint warranty
• 10 year delamination warranty
• 5 year wind damage warranty

No other garage door delivers on the reliability and stability of a Morton Door by Raynor backed by the contract warranty. See the Exclusive Garage Doors Warranty For Morton Buildings supplement for specific warranty details.

Operator Warranty
• 2-years
• 3-years when paired with door
Aspen™ Series
Design Choices, Style Quality
When you are looking for that perfect, new door for your home, look no further than Raynor’s Aspen™ Series. With all the design choices Aspen offers, you are sure to find the perfect combination that will enhance your home’s curb appeal and value.

MAP Collection
The MAP200 is a 2” thick, thermally efficient door, featuring Neufoam™ insulation that fills 100% of the section’s interior. Combine this with all the decorative options available, and you have a best-in-class door that just can’t be beat.

E-Z-P-Z Warranty
This exclusive Morton Building warranty offers an industry leading warranty across all major door components.

- 35 Year FLUOROFLEX® 1000
- 5 Year Sections
- 5 Year Track & Hardware
- 5 Year Springs
- 5 Year Delamination
- 5 Year Wind Damage
- 5 Year SecureLoc™ Anti Break-in Assurance
- 5 Year Climate Seal
- 5 Year Frames
- 5 Year All Hardware

In addition to standing behind our products, we also stand behind the safety and security our Raynor doors and Raynor SecureLoc openers provided when installed by an authorized dealer on a Morton contract which is why we can provide the SecureLoc Anti-Break-In Assurance® plan. Raynor’s SecureLoc system combines the strength of a Raynor MAP or MLV residential garage door with a Raynor Prodigy II™ with WiFi, Admiral II™ with WiFi or Ultra™II with WiFi opener that automatically locks when the door closes. When professionally installed, SecureLoc prohibits entry through garage door when it is closed. Raynor will replace, or repair, your Raynor door and opener if there is a break in through the overhead garage door.
