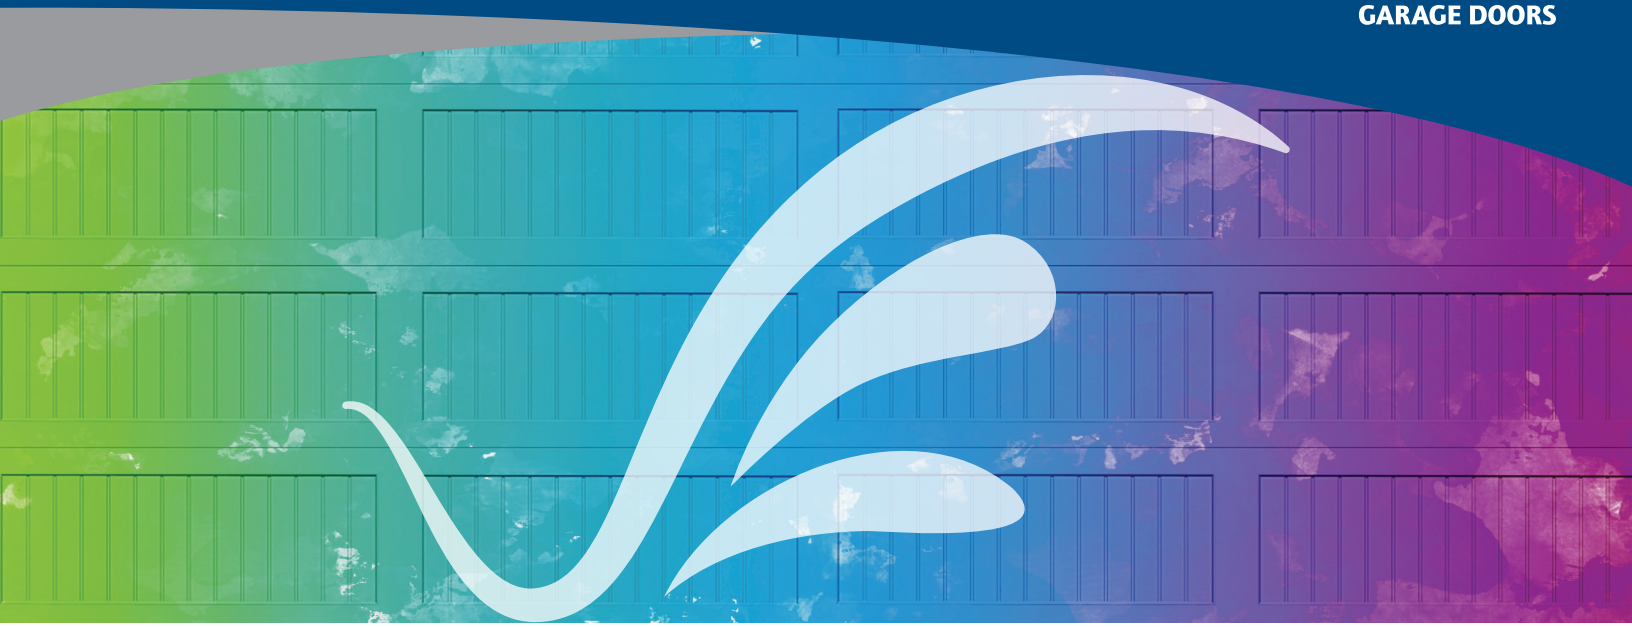
ColorWave™

RAYNOR GARAGE DOORS



Catch the **ColorWave™**

Elevate the look and quality of any home or project with Raynor's next generation post paint system. 1,500 Sherwin-Williams® Polane® Enamel garage door paint colors are available to give your door the perfect finish. This durable, high-quality industrial grade paint is specially formulated to bond with steel, vinyl, and plastic. The ColorWave process applies a third layer of paint to the pre-painted and galvanized steel, adding another layer of protection.

ColorWave is available on a wide variety of Raynor doors!

- Aspen™
- RockCreeke™
- BuildMark®
- TradeMark™
- ThermaSeal™
- SteelForm™
- Commercial Aspen™
- Commercial RockCreeke™
- Commercial BuildMark®
- Commercial TradeMark™

Solar Reflective Polane® Polyurethane Enamel comes standard for select colors.* This reflective paint formulation may be required for darker colors to help reduce the door's surface temperature to protect it from extreme heat.

5 Year Limited Warranty

1500 Colors

Industrial Grade

Residential & Commercial

COLORWAVE™

*Not all colors are available in solar reflective paint, colors that are not available as solar reflective cannot be used on polyurethane doors.

Gloss factors can also affect how the color matches with other finishes, most notably stains. While the color itself can be an exact match, gloss factor variations will make two different surfaces appear to be different colors. When matching stains, we recommend bringing an actual sample of the stained material to your local Raynor Authorized Dealer or Sherwin-Williams store for a custom color match.

RAYNOR GARAGE DOORS

COLORWAVE™

Technical Jargon	What This Means for You
ColorWave™ uses the next generation Polane® 8890 and Solar Reflective Polane® 8890 paint system from Sherwin-Williams®.	Not only is the ColorWave™ paint beautiful on your door, but it also offers elite functionality and delivers the highest quality.
ColorWave passed all abrasion, chemical, 3,000-hour corrosion, and 3mm deformation impact resistance quality tests.	We did our due diligence to ensure the beauty and quality of your door are protected from any natural elements or human error.
ColorWave guarantees 4.5-7.0mil dry film thickness, color uniformity, and 30-40 specular gloss level throughout each panel.	Our post painting process guarantees that your door always has an exceptional, uniform look throughout.
ColorWave comes backed by a 5-year warranty on chipping, cracking and peeling.	We believe so strongly in this new paint system that we are backing it with a 5-year warranty.
